

Education

- 2019** PhD Computer Science, Worcester Polytechnic Institute
expected *Dissertation: Ranking for Decision Making: Fairness, Accountability, and Usability*
Advisor: Elke Rundensteiner
- 2017** MS Computer Science, Worcester Polytechnic Institute
Thesis: Pivot-based Data Partitioning for Distributed k Nearest Neighbor Mining
Advisor: Elke Rundensteiner
- 2013** Major Certificate in Computer Science, University of Massachusetts Boston
- 2007** BFA Fine Arts 3D, Massachusetts College of Art and Design

Research Experience

Aug 2014 - Research Assistant Advisor: Elke Rundensteiner

Present *Computer Science Department, Worcester Polytechnic Institute*

Researcher in the Data Science Research Group. Investigating novel algorithms for fair prediction and ranking, and developing interactive data analytics tools and visualizations.
Technologies: Python, Java, Javascript, D3

Lead researcher and developer on the Massachusetts Technology, Talent, and Economic Reporting System (<http://matters.mlhc.org>), which integrates open datasets and provides visual tools to measure and understand the economic competitiveness of U.S. states.

Supervisor of undergraduate student teams for Major Qualifying Projects. Past projects include: a system to automatically integrate heterogeneous data from online sources, a suite of tools for data management and curation (currently used by student teams at Brandeis University), and a public-facing API providing access to a collection of over 30 datasets.

May - Data Science for Social Good Fellow

Aug 2016 *IBM Research Yorktown Heights, NY*

One of six researchers selected to work with IBM and partner social good organizations. Focus of project: to better quantify innovation in countries around the world. Analyzed over 1400 publicly available economic, demographic, and environmental datasets, and developed interpretable models to help decision makers understand the factors impacting innovation.
Technologies: Python, Jupyter

June - Technical Intern

Aug 2015 *MITRE Corporation Bedford, MA*

Analyzed TB scale data for cybersecurity applications. Provided proof-of-concept for a supervised learning-based system for intrusion detection.
Technologies: Java, MapReduce, Hadoop

May Research Assistant

Aug 2013 *Knowledge Discovery Lab, University of Massachusetts Boston*

Developed methods and tools for the automatic analysis of geospatial imagery.
Technologies: Java, Weka, Javascript

Honors and Awards

- 2018** **WIN Grant** Worcester Polytechnic Institute.
\$10,000 Women's Impact Network Grant to support the 2019 WiDS Central Mass Conference.
- 2018** **GAANN Fellowship** Worcester Polytechnic Institute.
- 2014** **ORISE Fellowship** Oak Ridge Institute for Science and Education.
Appointment to the Student Research Participation Program at the U.S. Army NSRDEC.

Leadership

- 2018** **WiDS Ambassador**
Organizer of the first regional Women in Data Science Central Massachusetts Conference, with 200 registered participants <http://www.widscentralmass.org/>
- 2017** **Tutorials Chair Broadening Participation in Data Mining Workshop**
Organized two tutorial sessions at workshop co-located with the ACM SIGKDD Conference.
Collaborated on an interactive Jupyter notebook for tutorial session on Algorithmic Fairness.
